**Subject:** RE: [External] Numbers for Accompanying Tables to Draft Ag Workgroup Final Report  
**Attachments:** Ag Workgroup - Final Report to WIP-3 Steering Committee - 4th Version - June 28 2019.docx; Ag Resource Needs.docx

**Importance:** High

John,

Jordan and I met this morning to discuss the final scenario; find the updated version of the Ag WIP Workgroup's report attached. What Jordan and I input is highlighted in yellow. I updated the file name and the footnote to distinguish that it's the 4<sup>th</sup> version.

I also added Matt Royer's comments from yesterday afternoon in as well, so it's all together in the latest version.

As for the "Appendix 1", I did not see that in the document (I apologize if you stated that it was yet to be created, that I was going to create it, or I missed it elsewhere). With that, I've attached a "clean" version of what I sent to you the other day, just with Ag workload, the new paragraph, as well as the bullet points I sent to you yesterday as well, so that it's an easy worksheet that you can add to the back of the final report as an Appendix.

Let Jordan and I know if you need anything further. Jordan reached out to you earlier today regarding adding the sediment reductions in, so if you and/or the other co-chairs would like to see the sediment reduction values in this document, too (since those were run and it's a substantial figure...in a good way), let us know.

Thanks,

Good afternoon, Jordan,

I was really hopeful that you would have provided the revised nutrient and cost numbers for the tables that will accompany the Ag Workgroup's report by now. Is it possible you can forward those by close of business tomorrow?

Sincerely,

John
